WELCOME TO ADVENTIST MEDICAL CENTER

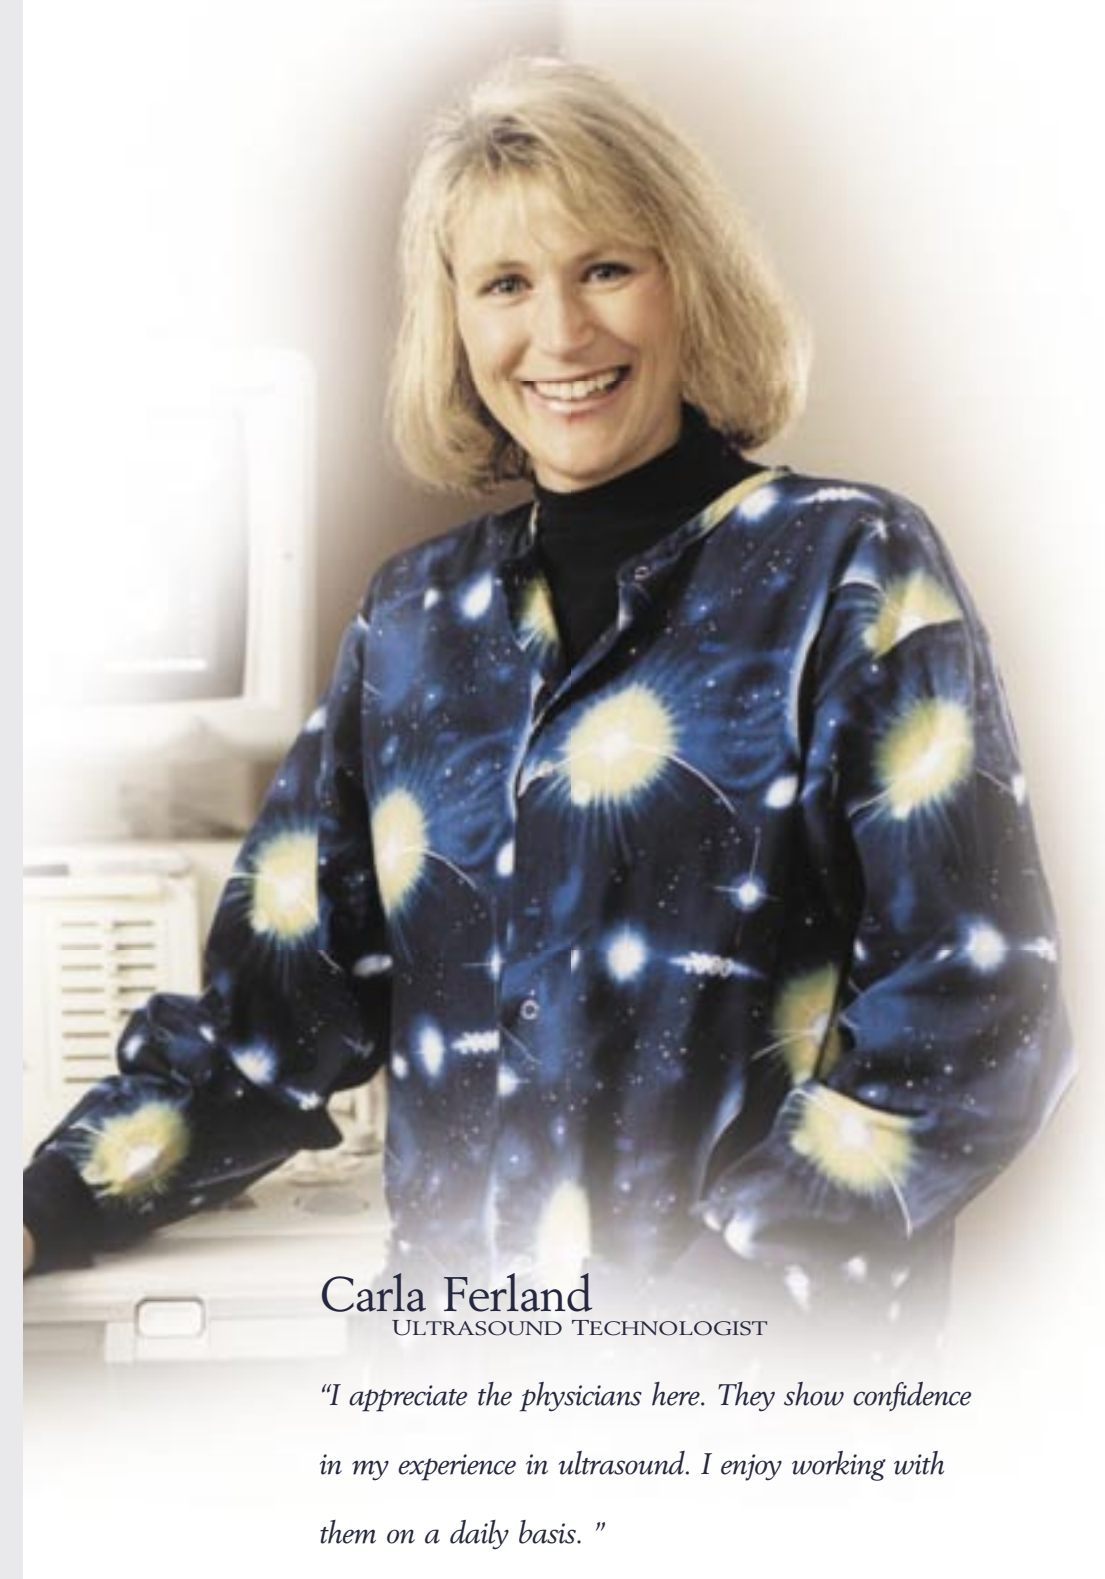

Adventist Medical Center is an integrated health system with a reputation for a vibrant sense of mission and an approach to health care that includes not just the treatment of disease, but its prevention.

Adventist Medical Center is the home of one of Portland's largest maternity units, and has centers of excellence in medical imaging, rehabilitation, cardiology, neurosurgery and health education. Our system also includes 15 primary care clinics and seven off-campus rehabilitation sites located in health clubs or near physician offices. We are a member of Adventist Health, a 20-hospital system serving California, Oregon, Washington and Hawaii.

OUR ROOTS IN THE SEVENTH-DAY  
ADVENTIST CHURCH

Adventist Medical Center was started by the Seventh-day Adventist Church, a Christian denomination with a strong commitment to helping their communities achieve good health. Building on this rich history, Adventists now operate one of the largest not-for-profit health care systems in the world, with more than 650 facilities worldwide.

While our church affiliation defines much of what we are proud to stand for, our organization welcomes patients from all walks of life, and seeks to hire people who share our passion for health care that is attentive to the physical, emotional and spiritual needs of our patients.
